15-19 June 2026

LOCATION

London and online

PARTICIPANTS

around 100

FACULTY

12 members

Why Sponsor?

- **Visibility**
- **Thought leadership**
- **Connectivity**

Arbitration Lab has become one of the most visible recent initiatives in the field bringing together (on-line and in person) those interested in arbitration in the United Kingdom and Switzerland.

We expect around 100 participants from over 30 jurisdictions, most of whom will be established or junior practitioners and recent LL.M. graduates who plan to continue working in their home countries.

Our past participants include professionals working for a variety of law firms around the world, government institutions, intergovernmental organizations and businesses.

The Arbitration Lab faculty combines top academics, practitioners and representatives of key arbitration institutions, creating excellent networking opportunities for faculty members.

In addition to opening and closing receptions for all participants, Arbitration Lab will host a faculty dinner to facilitate networking between faculty members.

Sponsoring this school will help to

- **demonstrate your thought leadership**
- **build your brand in your own and new jurisdictions**
- **attract new clients**
- **establish new links with practitioners from other jurisdictions**
- **create new business development opportunities**
- **give opportunities for your colleagues to improve their understanding of complex issues.**
