Why Sponsor?

Visibility

Lawyers and experts dealing with Russia and CIS-related matters are dispersed in multiple jurisdictions and constitute a fragmented audience. They are often overwhelmed by the number of professional and business development events taking place in different places.

Following the success of the inaugural conference, the conference will bring together practitioners, experts and government officials focusing on dispute resolution involving the former Soviet Union countries to learn about the most recent developments in the field.

Arbitration Lab partnered with CIS Arbitration Forum and other organizations and initiatives with tens of thousands of followers on social networks, targeting businesses and professionals working on dispute resolution involving parties from the CIS and other former Soviet Union countries.

Thought leadership

Connectivity

Unlike purely commercial conference organizers, Arbitration Lab combines academic expertise of comparative and international law with practical wisdom of practitioners, who shape our events and publications.

Sponsoring this event will help to

- Demonstrate your thought leadership
- Build your brand in your own and new jurisdictions
- Attract new clients
- Establish new links with practitioners from other jurisdictions
- Create new business development opportunities
- Give opportunities for your colleagues to improve their understanding of complex issues

Arbitration Lab serves as a bridge connecting practitioners from various jurisdictions, academics, policymakers and experts in the field of dispute resolution.
